

School Song

At our school we live in peace, Together we work in harmony,
To build a school where love is strong, And everybody feels welcome,
At our school we're all friends, As we show our love through our words and actions,
Our hands and hearts do wondrous things,

**At our school we love one another,
And we're fair to each other,
We take care of and look after,
All our sisters and brothers,
At our great school,**

La la la la la la

At our school we're all unique, Among our differences we live in peace,
We live a life that's fair for all, And together we follow God's call,
We're all good at different things, And we share our gifts so we can bring,
Joy and Hope to everyone,

**At our school we love one another,
And we're fair to each other,
We take care of and look after,
All our sisters and brothers,
At our great school,**

La la la la la la

We show our love with helping hands, To those in need wherever we can,
We pray for those who need God's help, So that they may be at peace in our world,
With open hearts we forgive, Those who hurt us so that we may live,
Together in God's peace

**At our school we love one another,
And we're fair to each other,
We take care of and look after,
All our sisters and brothers,
At our great school,**

La la la la la la
